

Dear Parents:

It is our desire, at **The Big Kids Club**, to bring the community together to support the family as a whole unit and visa versa. We know that it is the desire of every parent to want the very best for their child, yet affordable child care is often difficult to find, if at all. We don't believe parents should have only a few choices when choosing quality child care that offers only a part time or full time child care rate.

That is why we have the most inclusive child care plans available to choose from. Everything at *The Big Kids Club* was created with you and your child's best interest in mind! We are here to help and wish that you would join us in our effort.

May you become as blessed as we have been by the creation of this concept and facility.

Thank you for your time.

Cordova Neighborhood Church

What is quality child care?

- It's individuals that care more about your child, than they do about money. Our fees prove this!
- It's knowing your child is safe while you're away.
- Having a clean environment for your child to learn and play in.
- A licensed facility that employs experienced child care providers, welcomes parental involvement, is inclusive and has the support of the community in which it serves.
- A program that supports the Folsom Cordova Unified School District (FCUSD) and its efforts to educate the neighboring children, by offering a *Homework Club* to assist the children with their daily tasks.
- A *home away from home* comfort that enhances a child's social, emotional, physical and cognitive development.
- Transportation to & from school
- Flexible scheduling
- Unwavering commitment for your child's overall wellbeing.

MISSION STATEMENT

The Big Kids Club is designed specifically for families with school age children, needing before and after school care and Summertime Child Care at an affordable rate.

PHILOSOPHY

Many school age children (K-13 yrs) often have difficulty communicating with one another, adults, and are easily influenced by their peers. At *The Big Kids Club* we will guide the children by teaching positive social skills, cooperative communication and appropriate problem solving techniques. Having a qualified staff that is representative of what good role models are, will be exhibited daily and is essential to this process of growth.

We provide daily positive reinforcement for desired behavior and lessons of civility, such as, treating others as we would like to be treated and using appropriate manners and kindness. The Children generally respond well, respect one another and create even more fun in their own environment.

Because everyone is uniquely different, we intend to allow the child to grow at their own pace. We believe every child should have fun while learning, and should have the freedom to make healthy choices, with proper guidance by supporting their efforts to make good decisions. Hands on experiences are one of the avenues that children often learn from and according to child development experts, children learn at different stages of their development. We consider this to be a true statement and we desire to assist them through the developmental growth process.

We'd like to hear from you. 😊
